EXPERIENCE

Edmodo, San Mateo — *Intern*

Summer 2014

Re-coded a set of newly designed, responsive email templates for both Edmodo's marketing and notification emails. Also worked on other frontend projects such as Edmodo's annual conference, Edmodocon. Worked closely with growth, marketing, and design teams.

Make School (YC W12), Palo Alto — *Intern*

Summer 2012, Summer 2013

Developed mobile games using Objective-C and the cocos2d/Kobold2D libraries. Built the game Blend: Fruity Insanity!, a fast-paced matching game as a part of their internship program. Was featured by Palo Alto Weekly, San Francisco Chronicle, and Knowledge@Wharton.

EDUCATION

Henry M. Gunn High School, Palo Alto — 4.0 GPA

August 2014 - June 2018 (expected)

RECENT PROJECTS

Kenko

Mobile app that uses image recognition and health databases to provide nutrition facts given an image of some food. Top 10 + Best Cloud-based Mobile App at PennApps XII. Featured in PhillyMag.

Ringo

Open source project; Node.js-based server allowing one to harness the power of Xcode from within the browser.

PartySync

Online real-time social video watching platform (similar to Turntable.fm, except for YouTube videos).
